

TABLE 6**Conditions That Biochemically Resemble Hypoadrenocorticism (Pseudo-Addisonian Conditions)**

Whipworms
Third spacing of fluids
Chronic gastrointestinal disease
Renal failure
Hepatic failure
Reperfusion injury
Acidosis
Artifact (thrombocytosis, hemolysis)

The 2023 AAHA Selected Endocrinopathies of Dogs and Cats Guidelines are available at aaha.org/endocrine-disease.

These guidelines were prepared by a Task Force of experts convened by the American Animal Hospital Association (AAHA) and were subjected to a formal peer-review process. This document is intended as a guideline only, not an AAHA standard of care. These guidelines and recommendations should not be construed as dictating an exclusive protocol, course of treatment, or procedure. Variations in practice may be warranted based on the needs of the individual patient, resources, and limitations unique to each individual practice setting. ©2023 AAHA.
