Factors to balance when deciding whether to vaccinate a cat.

* Occurrence of FISS remains infrequent and idiosyncratic.
  ** Pertains to rabies vaccination only

FISS: Feline injection site sarcoma (see text for details.)

- **VACCINATE**
  - Risk of disease
  - ± Risk of FISS* and other adverse events
  - Zoonotic disease risk**

- **DO NOT VACCINATE**
  - Risk of disease
  - ± Risk of FISS* and other adverse events
  - Risk for zoonotic disease and legal complications**
